

Lewcott Offers Custom Resin Systems.

Lewcott Corporation is pleased to offer a series of advanced resin systems for use in high-performance applications. A wide variety of curing characteristics are available as well as high-temperature resistance, fire resistance and toughness.

Systems/Curing Profiles/Benefits:

- 1). Phenolics
 - General purpose
 - Modified for special applications
 - Variety of curing profiles available
 - High fire resistance
 - High char yield for carbon/carbon

- 2). Epoxies
 - General purpose
 - Modified for special applications
 - Variety of curing profiles available
 - Fire retardant versions
 - Toughened versions

- 3). Other Resin Systems
 - Polyesters
 - Bis-maleimides

We offer a broad range of chemistries which can be manufactured in quantities ranging from pails to tankers.
